```python
#!/usr/local/bin/python

import sys

import fileinput

for i, line in enumerate (fileinput.input('etc/ssh/sshd\_config',inplace=1)):
        sys.stdout.write(line.replace('PasswordAuthetication no', 'PasswordAuthentication yes'))
        sys.stdout.write(line.replace('PermitEmptyPasswords no', 'PermitEmptyPasswords yes'))
```
